

CASA KUPURI

HOME • KUPURI ESTATES

Casa Kupuri combines modern Mexican coastal architecture and design, together with traditional materials of Mexico and built with the highest construction quality. The property makes good use of new technology, and ecological solutions creating a very environmental sensitive and mindful home in paradise. The main three walls that align this house and the different areas emerge from the main plaza where the Mataiza tree is located and centred connecting the house by walkways that offer great ocean views as you discover the surroundings, and the masterfully design expansive exterior spaces.

A spectacular panoramic ocean and mountain view setting on an elevated home site, this property enjoys expansive views of the Litibu Bay, surrounding mountains, and beyond over the warm blue waters of the Pacific Ocean. A private pathway extension of the lot leads you down to a secluded beach palapa complete with bathroom, storage, and kitchen facilities with direct sandy beach access. Offering the perfect private beach facility for family and friends to enjoy the sandy pacific ocean beach and warm ocean. Just a short stroll along the sandy beach is the Kupuri Beach Club.

This unique property is not only appreciated for its lush tropical vegetation, welcomed shaded areas, and complete privacy should one want it, but also for its beautiful early morning, evening light, and breathtaking views.
